

THE CELEBRATION

8. SWEET LIFE

(W. Daniels, C. Van Cleave, L. Branigan)

I love you sweet life
I love your consequence
The night gives gently to the dawn
I'd like to thank you now
For turning me on
I love you sweet song
I love your harmony
I hear an ancient melody
Coming clear to me
Comin' nearer to thee
When I see the smiling faces
Shining like a bright light
Through the lonely night
Something's telling me everything
Is gonna be all right
I love your sweet song
I love your harmony
I wanted to ride
I kept it inside
I couldn't let on
But there comes a time in your life
You gotta get it on
And I love you sweet life
I love your consequence
The night gives gently to the dawn
I'd like to thank you now
For turning me on
I love your sweet song
I love your harmony
